TEACHING, LEARNING, CARING

November 16, 2009

Dear Parents,

We have been having a problem with students bringing and using aerosol sprays in the building, especially spray colognes or deodorants. We have had several students and teachers who have experienced problems breathing and episodes of asthma. From this time forward, students will not be allowed to bring aerosols on campus. If a student needs to use a deodorant for PE, they will need to bring a stick deodorant. Students who are caught using these aerosols or bringing it on campus will receive punishment. We want to make sure that you are aware of this so that you can help us out with this small problem.

Sincerely,

Charles T. Johnson, Jr.
Principal
